

Focal Point Group met July 21, 2009 at the Northland Arboretum in Brainerd.

The regular meeting started at 6 p.m. this month instead of the regular 6:30 time, with 31 in attendance.

Some gathered at 5:00 p.m. for technical questions, etc.

Roy Abbott showed a slideshow of assignment images that had been submitted.

The subject for assignment this month was Bridges. Thank you, Roy!

Sandy Holm presented a sampler slideshow of her images from Laos, Cambodia, Thailand and Viet Nam.

This was a wonderful sampler of what is possible with travel images, AND a point-and-shoot camera!

Thanks very much Sandy!

Mary Hendricks passed out copies of an email sent from Lisa Haste, explaining how to create a copyright symbol for images.

Stan Borman gave a presentation on composition from "Learning to See Creatively" by Bryon Peterson.

Shirley Borman told about a photo matrix plug-in she used for HDR enhancement of her assignment image.

The software is called Dynamix. Thanks Shirley for sharing!

Dwight Munns provided snacks for the meeting. Good job! Thank you Dwight!

Brenda Pfeffer will bring snacks for the August meeting.

August assignment: Symmetry

Respectfully submitted by,  
Mary Hendricks
